Interface is trusted by leading retail brands.

# Why leading retail brands rely on Interface

## Customer Experience

- Discreet, always on, pervasive physical security
- Flexible shopping options - curbside, BOPIS
- Minimal customer service wait times
- Fast and flexible checkout & payment options
- Guaranteed data privacy

## Employee Experience

- 24x7 security inside and outside the store
- Easy access to critical applications and data
- Serve customers faster inside and at the curbside
- Collaborate with colleagues easily from any device
- Get actionable training and performance insights

## Consolidate operations

Eliminate numerous vendors with conflicting Service Level Agreements (SLAs) and blurred lines of responsibilities. Interface takes complete ownership with stringent SLA commitments.

## Maximize ROI

Get more out of existing security sensors such as cameras, intrusion devices, and access control systems by integrating them with POS and internal applications.

## Leverage latest technologies

Get access to leading edge technologies from Interface's extensive network of technology providers to leapfrog the competition.

**"Interface has delivered significant cost reduction and maximized ROI across all loss prevention systems we implemented."**
